7. Development Program

Following the decision of the 56th Ordinary ISU Congress relating to a restructuring of the ISU Development Program, further to a related ISU survey among ISU Members and finally further to the appointment of the ISU Development Commission (see ISU Communication No 2042), the Council reviewed the Development Program policy and operating structure. Based on the conclusions reached, ISU Communication No. 2052 has been released on October 21, 2016.

8. Marketing/PR Strategy Report

The Council received a report from the ISU PR/Media Coordinator, Ms. Selina Vanier on the recent and planned activities of the Media/PR/Marketing team. Besides the ongoing regular activities, the Council agreed that the main focus for the year 2017 will be the updating of the ISU website technology and strategy. The continued enhancement of the ISU's social media

across all ISU disciplines and platforms remains another priority. The presence of ISU video/ social media teams on site of ISU Events and the gradual digitalization of the historic ISU video archives will contribute to a significant increase of content for the different ISU social media platforms and consequently exposure for the ISU disciplines.

The Council also agreed that Council members Patricia St. Peter and Jaeyoul Kim, in consultation with ISU President Dijkema and the ISU PR/Media/Marketing team, shall review the medium term ISU PR/Media and Marketing activities and strategies. They will perform this task by consulting with ISU Member representatives, ISU commercial partners as well as experts in the area of Public Relation, social media, television, marketing, event management, entertainment and other possible related areas. Their findings will be presented during the above-mentioned ISU Conferences in Rotterdam and Helsinki where Marketing & Promotion will be a main topic of discussion.

9. Ultimate Skating

The Council evaluated a new initiative currently called “Ultimate Skating”. This is a team performance in which teams are comprised of 8 to 10 Skaters from different ISU Figure Skating disciplines, for example either 2 Pairs, 2 Ice Dance Couples and 4 Single Skaters. The goal is to use not only traditional, but also original, innovative and currently not allowed elements, to create a format being attractive to a young generation of viewers. Subject to the availability of ISU Members and Skaters (which might also include ineligible Skaters) matching the above-mentioned profile, the ISU is investigating, in cooperation with the concerned ISU Members, the feasibility of a first demonstration of an Ultimate Skating Program on the occasion of the exhibition at the end of the ISU World Figure Skating Championships 2017 in Helsinki, Finland.

10. ISU Council meetings

The Council agreed to meet again
on March 25-27, 2017 in Helsinki, Finland (revised date)
on June 2-4, 2017 in Amsterdam, The Netherlands.
