

21. TANGO

Music	- Tango 4/4
Tempo	- 27 measures of 4 beats per minute - 108 beats per minute
Pattern	- Optional
Duration	- The time required to skate 2 sequences is 58 seconds.

Very erect carriage must be maintained throughout this dance. The partners should skate close together. Neat footwork and good flow are essential. The pace must be maintained without obvious effort or visible pushing. The dance consists of quick crossed steps skated on shallow curves interspersed between slower rolls skated on strong curves, followed by a promenade skated in open position.

At the end of the introductory steps the partners should be in outside hold with the lady to the right. The man makes two quick cross steps (*steps 1 & 2*), the first crossed in front, the second crossed behind (a crossed chassé sequence). The lady skates a similar sequence, the first crossed behind and the second in front. These quick steps are followed by a 4 beat roll (*step 3**) during which the couple assumes closed hold. During or at the end of the roll, the partners return to outside position but this time the lady is on the left. The next lobe consists of the same sequences skated on the opposite feet.

The third lobe starts with a shallow front-crossed right outside rocker for the man on *step 7* followed by two quick cross steps (*steps 8 & 9*), the first crossed behind, the second in front. The lady crosses behind on *step 7*, then steps forward for two steps, crossing on the second step. *Step 10* is another roll in which the couple assume closed hold. During or at the end of the roll, the partners return to outside hold with the lady on the left. The next lobe consists of another double cross step and roll sequence.

* The couple does not need to be in closed hold for the full 4 counts of *steps 3, 6, 10, and 13* but may change sides from outside to outside in the middle of these rolls, be in closed hold for fewer counts or even briefly. Either technique/interpretation is acceptable.

On step 14 the lady skates a cross roll into a three turn. The man also skates a cross roll before stepping forward onto an RFO swing roll (*step 15*) into closed hold while she skates LBO swing roll. The promenade follows with the partners in open hold, skating two quick and then two slow steps. Each partner then executes a closed swing mohawk (*steps 20 & 21*), inside for the man and outside for the lady, with each edge held for 4 beats. On *step 22* the lady steps forward to execute an inside three turn after one beat, holding the exit edge for 5 beats. The man skates a chassé sequence followed by a 4 beat roll (*steps 22 a, b, c*). The first part of *step 22* is skated in open hold. After the lady's three turn the partners are in closed hold but they complete the step in outside position ready to restart the dance.

Inventors	- Paul Kreckow and Trudy Harris
First Performance	- London, Hammersmith Ice Rink, 1932
